

PROFESSIONAL Customization

print options

heat transfer

The heat transfer process uses high heat to apply printed vinyl material to an endless list of items. Heat press gives you professional and satisfying results. Perfect for team uniforms and promotional products.

logo options

Do you have your own logo or are you looking for something unique? Our professional art department can work with you to create a one of a kind logo, or update an existing one as required. If you can visualize it, we can deliver it! Set up fees may apply.

You can also choose from our library of stock logos.

screen printing

It is a unique process of special inks that are applied directly onto fabrics in a series of steps. Bring your design ideas to life by creating beautiful custom printed apparel. Perfect for classic team logos & high quality images to imprint.

embroidery

Embroidery creates the most professional premium look for your team, business, or organization. Logos, names and numbers are stitched directly onto your apparel with the highest quality finishing and durability that lasts for years. Perfect for heavier material items such as thick jackets and back packs.
